

# #5

# The Progressive Adventurer.

Explore beyond the beaten paths with the multi-purpose smart #5.

# Iconic look, new edge.

The smart #5 takes everything you love about the brand, like frameless doors and that stunning Panoramic Halo Roof – which adds a fresh twist. With bold new details like the boxy design, oblong Cyber Sparks LED+ lights with Adaptive High Beam Assist, sleek matte finishes, and a cozy oak wood interior trim, it's got style and flexibility in spades. Ready for the city? Ready for the road? You bet.

# #5

Always in focus:  
with dual digital displays.

With dual ultra-clear 13" OLED touchscreens and a crisp 10.25" digital cluster, the smart #5 puts everything you need right at your fingertips — from navigation to entertainment, all in stunning detail. And with automatic day and night modes, the displays adapt to your environment so everything stays clear and comfortable, no matter when you drive.

## #5 Highlights

- Panoramic Halo Roof**  
 The Panoramic Halo Roof opens up new perspectives, letting in light to create a sense of space, while the electric roof blind, gives you full control, effortlessly blocking heat and 99% of UV radiation when needed.
- Sennheiser Signature Sound System**  
 The smart #5 Premium and BRABUS come with a Sennheiser Signature Sound System, featuring 20 speakers, including 1 central raising speaker, and Dolby Atmos for an immersive audio experience.
- Spacious Cargo**  
 The smart #5 offers 1350 liters of storage with the rear seats down and up to 72 litres (or 47 litres for Brabus) in the trunk, giving all the space you need for any journey.
- Over-The-Air Updates**  
 With Over-The-Air updates, you can easily download the latest features and improvements so your smart #5 stays up-to-date — often without requiring a trip to the service center.

Charge faster.  
Go further.

Thanks to the smart #5's cutting-edge 800-Volt battery technology, you can charge from 10% to 80% in just 15 minutes, giving you more time on the road. With up to 590 km of range on a full charge, it's built for long drives and spontaneous adventures — whether you're in the city or exploring beyond.

# Safest Large SUV of 2025

# #5

The smart #5 was awarded the Euro NCAP "Best in Class" title for large SUVs tested in 2025 — the highest safety recognition in Europe. It didn't just pass. It topped every large SUV in two of four categories: Child Occupant Protection (93%) and Safety Assist (92%). Built around a steel-aluminium hybrid body with 82% high-strength material, seven airbags, and millimeter-wave Child Presence Detection, the #5 is engineered to protect — before, during, and after an incident. Every smart model sold in New Zealand carries a five-star Euro NCAP rating. Safety isn't an option. It's the standard.

<u>Euro NCAP Overall</u>	★★★★★
<u>Child Occupant Protection</u>	93%
<u>Safety Assist</u>	92%
<u>Adult Occupant Protection</u>	88%
<u>Vulnerable Road User</u>	84%

# Bold Premium Offering.

High-end features come naturally with the smart #5 Premium

— delivering a driving experience that goes far beyond what you'd expect at this price point. From your very first drive, enjoy a beautifully crafted duo leather interior, ventilated front seats and rear seat heating, ensuring every journey is as comfortable as it is refined. The smart #5 Premium pairs ultra-fast 800V charging with an impressive 590km of range, so whether you're commuting through the city or heading out on a New Zealand road trip, you're always ready for what's next. Inside, dual 13" OLED screens and a Sennheiser 20-speaker Dolby Atmos sound system deliver an unmatched in-car experience, while Advanced Driver Assistance Systems and five star Euro NCAP safety provide complete peace of mind on every road.

With the smart #5 Premium, luxury is no longer reserved for those who pay more for a German badge — it is simply the new standard.

# The intelligent adventurer.

The smart #5 is ready for any adventure. Equipped with adaptive all-wheel drive and multiple driving modes, it seamlessly shifts from smooth highways to rugged trails. Practical features like towbar and lifestyle accessories ensure it's prepared for any journey. Whether it's exploring off-road paths or navigating the city, the smart #5 is always up for more.

- **Multi-mode drive system**

From efficient to adventurous – smart #5 adapts to you. Switch between drive modes, enjoy AWD off-road, and fine-tune braking from classic to one-pedal.

**Sand** – Maintains traction on loose surfaces.

**Mud** – Stability on slippery, uneven ground.

**Snow** – Grip and smooth drive on ice.

**Adaptive** (Premium & BRABUS)  
Auto-adjusts to changing conditions.

**Rock** – Confident handling on rocky paths.

- **Vehicle-to-load**

Make your smart #5 a mobile power bank with V2L. Whether you're charging your e-bike, powering an electric camping light, or running other devices, the car's battery provides the energy you need. Just use the Device-to-Vehicle cable (sold separately) and enjoy on-the-go convenience.

- **Towbar**

Take more with you – the smart #5's towbar (accessory under development, available from August 2026 onwards) makes it easy to hitch a trailer, bike rack or gear carrier. With up to 1,600 Kg towing capacity, your adventures just got a whole lot bigger.

- **Camping mode**

Turn your smart #5 into the perfect outdoor retreat with Camping Mode. Choose from three bed configurations to match your adventure:

**King Size:** Up to 1.4 m x 2.7 m maximum space for two.

**Queen Size:** Up to 1.4 m x 2.1 m cozy and comfortable.

**Single Bed:** Up to 0.6 m x 2.7 m perfect for solo traveller.

## A worry-free electric experience

### Warranty package

Confidence comes standard with the smart #5. Enjoy 5 years or 150,000km warranty and 8 years or 160,000 km battery coverage. Plus 5 years roadside assistance included.

The BRABUS

# MADE TO STAND OUT.

The BRABUS Line is the boldest edition of every smart model – an outstanding peak performer with BRABUS DNA and attitude. Always premium, powerful, unsurpassed. A no-compromise collaboration that is both bold and athletic, yet effortlessly unconventional.

It combines exclusive comfort with a wealth of premium features, setting a new standard in distinctive design.

# The BRABUS

All illustrations are for information purposes only and may show optional extras. Color deviations are possible for production reasons or due to 3D and lighting effects in the illustrations. Energy consumption combined in kWh/100 km (WLTP): 18.4(Pro+ /Premium), 18.5 (Pro), 19.9 (BRABUS/Pulse/Summit Edition); CO2 emissions combined (while the car is in operation) in g/km (WLTP): 0; CO2 class: A; electric range (WLTP) in km: 590(Pro+/Premium), 465 (Pro), 540(BRABUS/Pulse/Summit Edition); The values were determined according to the prescribed measurement procedure. The data do not refer to an individual vehicle and are not part of the offer but serve solely for comparison purposes between different vehicle types. The values vary depending on the optional equipment selected. The specified CO2 emissions are only relate to the operation of the vehicle; CO2 emissions that are generated or avoided through the production and provision of the vehicle and the energy source are not taken into account when calculating according to WLTP. The ranges determined according to the standard WLTP also include the measured range achieved through recuperation (energy recovery during braking). Individual driving style and behavior, speed, acceleration behavior, outside temperature, topography and the use of electric vehicles have an influence on the actual range and may reduce or even increase it under certain circumstances. Depending on driving conditions, the value may deviate from the stated value. Under optimal conditions, it is possible to charge smart #5 from 10-80% at a 400 kW DC fast charging station while #5 Pro line you can charge from 10% - 80% at a 150 kW DC fast charging station in less than 30 minutes. The available drive power in battery-powered electric cars depends on various factors, such as the duration of the required power as well as the battery voltage and temperature. Due to the physical framework conditions, the maximum power for the specified acceleration values can be called up repeatedly, but not any number of times in succession. All smart driver assistance and safety systems are aids and do not release the user from his responsibility as a driver. Observe the information in the operating instructions and the system limits described there. smart offers the convenience of remote control functionality via mobile phones for all vehicle models. Standardised basic functions are included in all offers. Extended Connected functions are only available on request and at extra cost. All premium connectivity functions require a paid subscription, including an extended connectivity volume. The current compatibility of the smart mobile phone app for iOS/Android operating systems can be found in the description of the hello smart app in the respective app store. To be operational, prior registration at id.smart.com is required. The smart terms of use and licence conditions apply to all remote services. Compatible phone and compatible active data plan required. More information on Apple CarPlay at <https://www.apple.com/ios/carplay> and on Android Auto at <https://google.com/android/requirements>.
